

Ocean Protection

by Rob Dodge

Kahoot!

<https://create.kahoot.it/details/4caa3931-e14f-489b-8275-7106e33a1d83>

Discussion Questions:

If you were in charge of creating environmental policies, what would your first step to protect the oceans be?

What type of challenges may be encountered when trying to establish Marine Protected Areas?

What other benefits could arise from protecting marine ecosystems?

Are there any negative impacts that you think may arise?

What actions could be taken to create more Marine Protected Areas?

What could be done to increase awareness of the benefits of Marine Protected Areas?

Was there anything you learned from the Kahoot that surprised or concerned you?

PROTECT OUR OCEANS
